

AIM Collections Care Audit Supplier List

This list of Icon Accredited members have indicated that they have the knowledge and experience to carry out audits as part of the AIM Collections Care Audit Programme. Please note that the names on the list indicate their ability to undertake a condition survey of a collection, not necessarily their ability to undertake interventive treatment of the collection types listed (although many will be able to). If you need to identify a Conservator-Restorer to undertake treatment to your collections, you can find a fuller list of individuals at the [Icon Conservation Register](#).
